EXPERIENTIAL INTELLIGENCE BEFORE ARTIFICIAL INTELLIGENCE

NEW THINKING INVENTION PREVIEW & INTRODUCTION BY WILL MEYSING

SHARED WISDOM PATTERNS SNAPSHOTS (SWPS™) HOTSPOTS OF 2D <=> 3D INSIGHT

EXPERIENTIAL INTELLIGENCE (EI) & VALUES BELIEFS CONVICTIONS® (VBC's)

EI includes everything experienced from "womb to tomb" that impacts & shapes Human self-identity choose/rank Judgment Patterns. VBC's® define your personal legacy of "senses driven" ability to perceive and interpret everything you experience 24/7 as either a Positive/Uncertain/Negative encounter in life. A SWPS™ 7 Portrait Series Choose & Rank Thinking Tool provides a comprehensional leap forward in better understanding the influences on one's life with your EI/VBC's Judgment Patterns decisions.

(1) The constant autonomic (unnoticed) perspective shifting with 2D<=>3D perception greatly influences interpreted meaning of any digital or printed image.

(2) The merging of Human General Intelligence Q&A thought and reasoning (HGI) with AI generated Artificial General Intelligence (AGI) programmed Q&A "thought" that creates our thinking identity.

WM'S PERSONALLY GUIDED TOUR OF HIS INVENTION: THE SWPS™ SERIES

The SWPS Series™ is a thinking tool that captures Participants' Experiential Intelligence (EI) and their Values Beliefs Convictions (VBC's®), as they record their Thinking Patterns.

There are many benefits to completing a SWPS™ Series.

The Series act as a self-help study guide, taking an Author's wisdom and spacing it out on the page in a manner that optimizes a Participant's retention abilities. The structure instigates Right Brain thinking so that your Left Brain operates ideally and you absorb the information quickly.

Encountering information in the layout of a SWPS™ Series builds your personal awareness in the same manner a meditation practice does. When you face emotional or physical challenges, developing a SWPS™ Series practice amplifies your coping skills.

Chose 1, 2, 5, 6

NEW ERA OF LIVING A HUMAN AWARENESS-CENTERED EXISTENCE "WITHIN" AN AI-DOMINATED DAILY REALITY

The images on the next page (intro page 2) introduce you (and your brain) to 2D<=>3D thinking. These images don't have text within them, but they do jumpstart your Right Brain's abstract thinking about meaningful patterns. Page 2 (top section) provides examples of autonomic shifting as an observational influence that you cannot subvert or control. The lower section introduces intentional image shifting projecting a 2D image as a 3D, 4 sided Regular TetraHedron(RTH) that a Participant consciously shifts reading languaged meaning of each #'d side using Right Brain and Left Brain unified understanding that results in Whole Brain encapsulating a topic content conclusion. These "shifting experiences" make you aware that this is happening to you. This knowledge creates a counterbalancing rationale/intuitive reasoning strategy to compensate for these distortions of reality.

SR ranking 2, 1, 6, 5 CB ranking 1, 2, 5, 6

When you look at Portrait Pages 1-7 (pages 3-9) you'll notice a similar image-led shifting. The Regular TetraHedron image activates your emotional and abstract thinking, so that the Right Brain then leads the Left brain through the language. With enough practice, you develop a cognitive awareness of the two spheres of your brain, working separately and together. This is what gives a SWPS™ Series its power and allows it to offer its benefits mentioned above.

RANKING OF 4 CHOSEN ABSTRACTS 5, 6, 1, 2

Create your own Choose/Rank Judgment Patterns scoring Response Report with this self identity "fingerprint-like" thinking tool. A straightforward – standardized equation/formula for revealing Participants' EI/VBC's existence decisions patterns to discover and expand human endeavor self-satisfaction as well as breakthroughs from Response Report comparative results sharing.

Discoveries

Experience intentional 2D<=>3D shifting below: read statements clockwise around the RTH encapsulated thinking head

1. WM has identified how the Human brain can learn new patterns of thinking as it engages the SWPS Portrait, and its 3 Components (the RTH, SB & CB), to consolidate and improve self-assessment and how to apply it. That is how COMPLETE BRAIN THINKING (CBT) happens when a SWPS Series Choose/Rank outcome focuses and intensifies thought messages to a SWPster.

2. These EI/VBC's Judgment Patterns allow SWPsters to access new thinking territory with self-awareness. WM calls this "Feeling Intelligence." According to WM, Feeling Intelligence is the learned ability to recognize and evaluate flashes of mental imagery and choose which flashbacks/flashforwards can be elevated to a conscious level of thought.

4. People all over the world can rise above scripted lifestyle patterns to evolve individually and/or together. As more people share their EI/VBC's, more Humans will have a purposeful pathway and thrive.

3. Embrace the advantages of Complete Brain Thinking and build personal archives to discover body/spirit awareness.

Rank this Conclusion Box: 1 ___ 2 ___ 3 ___ 4 ___

CONCLUSION BOX (CB): *Increase HGI Hope & Optimism Resilience*

EI/VBC's Judgment Patterns Response Reports relay messages of insight and deep personal connection as a Participant embraces an author's wise text.

1 ___ 2 ___ 3 ___ 4 ___

Rank this Summation Box: 1 ___ 2 ___ 3 ___ 4 ___

SUMMATION BOX (SB): *Welcome 3D Thinking Explorers*

Explore your EI/VBC's biases and how you accept them as the truth. Review how the Left Brain, Right brain, and Whole Brain can mutually struggle, or successfully integrate, perspective shifting with autonomic 2D<=>3D image examples. The 3 components of the SWPS Portrait's layout directs the Right Brain, Left Brain, and Whole Brain to shift attention for better language comprehension. The lines of each Summation Box, RTH, and Conclusion Box may be subtle, but your Right Brain cannot ignore it due to its easy-to-recognize shape.

From WM's
EI/VBC's
Awareness
Patterns
Discoveries

Experience intentional 2D<=>3D shifting below: read statements clockwise around the RTH encapsulated thinking head

1. Enjoy a beautiful picture of a Japanese pagoda and the far-reaching valley and majestic mountain landscape. Make note of how your brain's EI/VBC's ingrained habits interpret the image instantly. It processes the upfront pagoda, the distant view of the valley, city, and far away view of the mountain, from the 2D photograph into a 3D illusion. How does your brain autonomically do this? Alert your reviewing awareness as you choose/rank your SWPS Series.

2. These perception/perspective shifting distortions that you accept as an authentic view of the imagery, need to be considered because of their overwhelming influence on your thinking judgment. Maybe it is not that important to you with these basic examples, but with AI's rapid ability to provide information and entertainment through images, it can manipulate this exhilarating feedback stream. This leaves human cognitive processing in the dust and we become less tolerant to the idea that we have to refresh our reasoning. It's quicker, easier, and therefore more satisfying, to use and receive AI's reasoning.

4. The way these images are presented is fairly harmless and entertaining, but with AI's ability to present similar autonomic shifting situations to a user/consumer at a constant and rapid rate there is more possibility for malfeasance. An increased self-awareness about how AI can use these techniques to compel an Irresistible Interest is critical for maintaining personal thoughts, identity, and ethics.

3. This autonomic shifting may be an observational influence that you cannot subvert or control, but you can be aware that it is happening to you. You can create a counterbalancing rationale/intuitive reasoning strategy to compensate for these distortions of reality.

Rank this Conclusion Box: 1 ___ 2 ___ 3 ___ 4 ___

CONCLUSION BOX (CB): *Increase HGI Hope & Optimism Resilience*

These images present questions about 2D<=>3D distance and shape shifting layouts. A SWPS Series empowers you to take control of your internal perception/perspective shifting and reduce the impact of autonomic shifting distortions. Such awareness is helpful when content can be intentionally created for ulterior motives and may not be beneficial to your self development.

SUMMATION BOX (SB): *Welcome 3D Thinking Explorers*

How can we share exciting breakthroughs in thinking awareness development if we do not first identify, label, and describe the all-influencing hidden aspects of our mental lives as we live, work, and play?

From WM's
EI/VBC's
Awareness
Patterns
Discoveries

Experience intentional 2D<=>3D shifting below: read statements clockwise around the RTH encapsulated thinking head

1. Two concepts you should know are EXPERIENTIAL INTELLIGENCE (EI) and VALUES BELIEFS CONVICTIONS (VBC's). EI includes everything experienced from womb to tomb that shapes personal identity. VBC's define your personal legacy of ability to perceive and interpret everything you experience as either a positive/uncertain/negative encounter in life. As you recognize and record your Judgment Choose/Rank Patterns in your Response Report in a Series, it is easier to track your EI/VBC's.

2. WM's first designs were just about career advancement and planning for an individual and their family. However, WM connected with the EI/VBC's in all kinds of best selling Author's' books - 100's and 100's of them. He was driven by an unexplainable passion to invent a better way to capture an author's EI/VBC's lessons. He wanted to share the wisdom in these books in a way that provided an immediate and deep injection of timeless truths to spawn fast action thinking lessons for a participant's life.

4. As you Choose and Rank the "captured text" you make judgments, and learn about new thinking patterns that offer self improvement success.

3. The SHARED WISDOM PATTERNS SNAPSHOTS (SWPS) anatomy and layout shifts your brain's attention. SWPS Series target and dissect the wisdom from authors' books. Within that, the format of a SWPS Portrait helps a participant observe their decision-making process as they use their Left Brain, Right Brain, and combined Whole Brain. It awakens their attention to their perceptions/perspectives.

Rank this Conclusion Box: 1 ___ 2 ___ 3 ___ 4 ___

CONCLUSION BOX (CB): *Increase HGI Hope & Optimism Resilience*

The layout on each Portrait Page engages both the physical senses and mental reasoning to generate comparative insights about personal identity. This can counterbalance AI's potential domination of users' EI/VBC's rationale.

Experience intentional 2D<=>3D shifting below: read statements clockwise around the RTH encapsulated thinking head

1. The 7 Portraits within the SWPS Series Choose/Rank process reveals a formula for recording a Participant's EI/VBC's legacy of Judgment Patterns with total brain engagement. A SWPster's personal Choose/Rank responses proved a way to examine their Thought Patterns and the opportunity for intrapersonal enlightenment. In addition, a SWPster can easily share this insights.

2. If you're not capturing your Choose/Rank Responses with a SWPS Series, how will you examine, compare, and project your transformed perception/perspectives of who you are and how you can improve yourself? As you complete a SWPS Series, you learn to identify and understand your personal EI/VBC's Thinking Patterns. As you assemble an archive of SWPS Series Response Reports, you create a way to better communicate and share your insights.

4. Betty Edwards wrote DRAWING ON THE RIGHT SIDE OF THE BRAIN. Our SWPS library has 3 Series based off of this book. They provide insights into Left/Right/Whole Brain reasoning. A SWPS Participant can build an awareness of how their brain conflicts and unifies thoughts.

3. Your recorded Choose/Rank results provide two things. First, and most importantly, It is an explainable path for evaluating and evolving who you are and where you want to go as you navigate your life's pathway. Secondly, these results allow for the potential to use a statistically standardized formula to create a participant EI/VBC's based matchup program.

Rank this Conclusion Box: 1 ___ 2 ___ 3 ___ 4 ___

CONCLUSION BOX (CB): *Increase HGI Hope & Optimism Resilience*

With these clearly defined thinking tools, SWPsters can now better explain themselves to each other, with their recorded insights. A SWPS Series archive can capture and protect individual identity patterns that become part of Human General Intelligence (HGI).
